DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group II (IOL) and specie E (Figures 23-25) in the reply filed on 5-19-06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 17-20,23,27-33 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 5-22-06.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 13-16 and 24-26 are rejected under 35 U.S.C. 102(b) as being anticipated by McClure US PN 4,514,040.
5. McClure disclose in figures 1-4 an intraocular lens comprising a chamber having anterior wall 36 and posterior wall 38, primary fluid such as air (line 55 of col. 3), secondary fluid (liquid), and dike 40/24 which inhibit flow of the secondary fluid to posterior and anterior walls when the optic body is oriented upward relative to the horizontal axis.

Allowable Subject Matter

6. Claim 22 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
